SPLIT TOWN

The city of Split is situated in the warmest region of the northern Mediterranean coast, in the very centre of the Adriatic eastern coast and in the immediate vicinity of the rivers Jadro and Žrnovnica.

Without hiding their pride, the people of Split will tell you that their city is "the most beautiful one in the world and beyond". This forever young city has lived its urban rhythm for as long as 1700 years, with its heart in the Diocletian Palace.

The first inhabitant of Split was the Roman emperor Diocletian who started to build his palace in 293 AD. Ever since the life of the city protected by the UNESCO has been writing the history of this unique capital of Dalmatia.

Die Stadt Split liegt im wärmsten Gebiet der mediterranen Nordküste, im mittleren Teil der Adriaküste und an den Flüssen Jadro und Žrnovnica. Die Einwohner von Split sind auf ihre Stadt sehr stolz und sagen immer, dass ihre Stadt "die schönste Stadt der Welt" ist. Split lebt schon 1700 Jahre im urbanen Lebensrhythmus, mit dem Herz im Diokletianpalast, das sich besonders durch ihre unaufdringliche und liebenswerte Gastfreundschaft hervorhebt. Der erste Einwohner der Stadt Split war der Kaiser Diokletian, der in der südlichen Bucht der Halbinsel im Jahre 293 nach Chr. einen prachtvollen Kaiserpalast von 30 000 m² Fläche errichtete, in dem er auch bestattet wurde. Die jahrtausende lange Geschichte dieser Stadt befindet sich heute auf der UNESCO-Liste zum Schutz des historischen Welterbes.

La città di Spalato si trova nella parte più calda della costa settentrionale del Mediterraneo, al centro della costa adriatica e nell'immediata vicinanza dei fiumi Jadro e Žrnovnica. Gli abitanti della città in cui siete arrivati vi diranno con tanto d'orgoglio che la loro città è "la più bella del mondo". Questa città eternamente giovane già da 1700 anni vive a ritmo urbano, con il cuore nel palazzo di Diocleziano. Il primo abitante di Spalato era l'imperatore Diocleziano che in questa tranquilla insenatura verso il 293 dopo Cristo decise di costruire una sfarzosa villa imperiale. Da quei tempi sino ad oggi l'esistenza millenaria della città sotto la tutela dell'UNESCO scrive la storia di questa capitale unica della Dalmazia.

La ville de Split s'est positionnée sur la partie la plus chaude de la côte septentrionale de la Méditerranée, au cœur de la côte adriatique à proximité immédiate des rivières Jadro et Žrnovnica. Lorsque vous arrivez à Split, les habitants vous diront avec beaucoup de fierté que leur ville est la plus belle au monde. Cette ville perpétuellement jeune vit son rythme urbain depuis 1700 ans avec son cœur dans le palais de l'empereur Dioclétien. Le premier habitant de Split fut l'Empereur Dioclétien qui décida en 293 AC de construire une villa impériale de 30.000 m². La durée millénaire de la ville de Split, sous la protection de l'UNESCO, est inscrite dans le registre du patrimoine culturel mondial et crée l'histoire et le présent d'une métropole unique de la Dalmatie.

SALONA

Today's Solin started to develop in the 4th century B.C. as a Greek – Illyrian settlement. Contemporary Salona was a port of the Illyrian tribe Delmati, who traded with the Greek seafarers. It was both a fortress and a port to Delmati while later, in the 1st century B.C., Salona was conquered by the Romans. After the conquest, Salona became the capital of the Roman province of Dalmatia. History tells us that the Roman emperor Diocletian was born in Salona and that he built his palace nearby. This palace is known as Diocletian's Palace and it became the core of the modern city of Split.

Rich archaeological remains are visible in the imposing walls and their towers and gates, a forum with temples, a theatre, an amphitheatre, unique Episcopal monuments and an early Christian church in the cemetery where they buried Salona martyrs. Also St. Dujam, the Solin bishop, martyr, the patron saint of the town of Split is buried on Manastirine. This important site near Split is the largest complex of ancient monuments in Croatia, and visited by a large number of tourists throughout the year.

SURROUNDINGS

KLIS

Klis is a small town just a few kilometers from the city of Split. The hill of Klis is a bond between mountains Mosor and Kozjak. During centuries it has been a target for many nations, from the Illyrians and the Venetians to the Ottomans. At the peak of this hill village was built with the fortress which represents resistance of united Dalmatians in their fight against the Ottomans. Klis fortress is located on high, natural sheer rocks where a beautiful view extends over the neighbouring areas and middle Dalmatian archipelago. The Fortress has three levels and is surrounded by a triple ring of city walls. The main celebration in Klis is organized on St. Roch's day in August, when many musical and theatre performances are held.

OMIŠ

Omiš is founded on the left bank of river Cetina. It is situated in a unique setting between a mountain, river and the sea. Omiš was a settlement below fortress Starigrad (Fortica) placed high in the mountain. Due to permanent threat from land and sea, Omiš was fortified as early as middle ages. Fortifications were strongened with special forts on east side, and on the north-west by fortress Peovica (Mirabella). The oldest monument is a small church of St. Peter dating from 10th century. City museum is not far from the parish church, in a Renaissance house, and it contains archaeological and ethnographical exhibits.

STOBREČ

Stobreč is a town situated on a peninsula east from Split, on a location of ancient town Epetion next to river mouth of Žrnovnica. Its distance to Diocletian's palace is 6 km and it is a part of the city of Split. Stobreč offers many forms of active vacation such as sailing, rowing, surfing, fishing, football, picigin, volleyball, shooting, tennis courts and golf. Numerous catering objects offer great variety of traditional Dalmatian food and drinks. Cultural programme consists of local festivities in Stobreč, which culminate in August, with the main fishermen's night and the feast of St Lawrence.

TROGIR

Trogir is a town-museum in the very meaning of the word. It is considered to be one of the best preserved Romanesque-Gothic towns in Central Europe, and this makes it special and unique. The core of the town is a castle and fortress surrounded by city walls and especially valuable is the cathedral of St. Lawrence with its main portal modeled by famous Dalmatian sculptor of 13th century, Radovan. Historical core of Trogir is a unique cultural monument, which is listed on UNESCO's list of world heritage (1997.).
